

Blue J — Tough decisions made easier

Included in your CFIB membership

What is Blue J?

Blue J is an enhanced software platform that searches legal rulings surrounding labour and tax issues and compares them to the factors you raise with us, to predict the most likely outcome if the matter were settled in court.

You can get answers to questions such as:

- You're terminating an employee; do you know how much (if anything) you need to pay them?
- Your employee says they are stressed out and provides a doctor's note detailing changes you need to make to their duties and schedule; do you have to accommodate them?
- You just made an online sale to a customer in a different province; what taxes do you charge?
- Do you know if your worker is an employee or a contractor?
- Your sister works for your business; is she eligible for EI?

Is Blue J reliable?

Yes! Blue J is used by:

- ✓ 70% of Canada's largest accounting firms
- ✓ 80% of Canada's largest law firms
- ✓ The Canada Revenue Agency (CRA)

How much does Blue J cost?

Nothing! Blue J is included in your CFIB membership — and can actually help save you money! Many large law and accounting firms use Blue J, so you can take your report to your legal/accounting professional, saving them the research and you hundreds if not thousands of dollars in hourly fees!

Call our Advisors at 1-833-568-2342 and ask for Blue J. Simply explain your situation/concern and they will guide you through the process: asking a series of questions to establish the facts of your situation, which will be used to generate possible outcomes.

Note: not all situations will be suitable for Blue J; however, our Advisors have many tools at their disposal and will work diligently to get you the help and information you need.

Running a business can be challenging.
We make it easier.
